COMPANY OVERVIEW

Rainier Software Solutions LLC is a Washington-based, **principal-led** software engineering firm delivering secure, scalable, and mission-critical systems to federal and state agencies. We bring an elite engineering pedigree from Tesla, Adobe, Snap, T-Mobile, and Starbucks to government missions — with zero communication overhead and direct expert execution.

Target Customers: Federal civilian agencies; Washington State and local governments requiring secure web systems, data platforms, and legacy modernization.

CORE COMPETENCIES

Full-Stack Application Architecture

End-to-end development of secure, scalable web systems — expert back-end APIs, modern frontends, and AI-integrated interfaces.

Legacy System Modernization

Incremental transformation of aging systems into modern, maintainable codebases. Zero business disruption, full continuity.

AI & Data Engineering

Private-cloud LLMs and Retrieval-Augmented Generation (RAG) with data sovereignty and secure ETL pipelines.

Zero-Trust Cloud & DevSecOps

Automated Infrastructure as Code and container orchestration delivering audit-ready, multi-cloud environments from Day One.

Compliance & Accessibility

Architecture designed to facilitate NIST 800-53, SOC2, and Section 508 / WCAG requirements, supporting streamlined ATO processes.

WHY RAINIER

- **Principal-Led Execution:** Every project is led by a technical veteran. Zero junior-developer overhead — immediate expert problem solving.
- **Silicon Valley Methodology:** High-velocity Agile and DevSecOps used by the world's most innovative companies, applied to government missions.
- **Modular Contracting:** MVPs in weeks, not years — validate requirements early and pivot without financial loss.
- **Local Pacific Northwest Partner:** Edmonds, WA — dedicated presence for WA State and Federal Pacific Northwest agencies.
- **Certified Diverse Supplier:** DBE, MBE, PWSBE — helps prime contractors and agencies meet diversity subcontracting goals.

PAST PERFORMANCE

interview.study — AI Platform

Architected and deployed a WCAG-compliant AI platform serving thousands of concurrent users with 99.9%+ uptime and sub-2-second response times via multi-cloud architecture.

Enterprise Commercial Engineering

Delivered scalable front-end and back-end architectures for Clover Health, Noonlight, and Bully Pulpit International — supporting millions of users.

Tier-1 Tech Scale & Security

Led distributed systems architecture handling millions of daily transactions at Tesla, Adobe, Snap, T-Mobile, and Starbucks with rigorous data security.
